

DATA PROCESSING		This side for Laboratory use only		Site Code SYU 04	Context 391	Sample no 86
Method (tick)		sieve size (tick or give alternative)		volume processed		
Flotation /		1.0 + 0.25mm ✓		10L		
Coarse bulk sieve		6.0 - 8.0mm				
Fine sieve /		0.25mm				
Flot present? / DRY		Subsample retained? (size) X				
Sieved by / date		Sorted by / date				

RESIDUE DESCRIPTION

volume before sorting: 3L

description of residue composition before sorting: BAGS MARKED POSSIBLE

CREMATION. BURNT BONE MOSTLY ANIMAL NOT HUMAN. GRAVEL + CERAMIC RES WITH FEW BURNT BONE

constituent (tick)	abundance	diversity	comment	transferred for post-exc?		
				yes	no	to whom
charred grain						
charred seeds						
charred wood						
charred other						
waterlogged seeds / fruit						
waterlogged wood						
waterlogged other						
mineralized grain						
mineralized seeds						
mineralized wood						
mineralized other						
bones: large mammal /	2	2	BURNT			
bones: small mammal						
bones: fish						
bones: bird						
bones: rep/amph						
molluscs: marine						
molluscs: freshwater						
molluscs: terrestrial						
eggshell						
insects						
other (specify)
